INTRODUCTION

These guidelines provide direction for local plans submitted [under Public Law 113-128, the Workforce Innovation and Opportunity Act \(WIOA\)](#). WIOA requires each local workforce development board (LWDB) to develop and deliver to the state a comprehensive four-year plan. These plans must be submitted in partnership with the chief elected official. Regulations require states and LWDBs to regularly revisit and recalibrate state plan strategies in response to changing economic conditions and workforce needs of the state [\(20 CFR, Unified and Combined Plans Under Title I of the Workforce Innovation and Opportunity Act, §676.135\)](#).

The law emphasizes the importance of collaboration and transparency in the development and submission of local plans. Affected entities and the public must have an opportunity to provide input in the development of the plan. Local boards must make the plan available electronically and in open meetings to ensure transparency to the public.

Local workforce development boards provide leadership and should seek broad stakeholder involvement in the development of their local plan. Local elected officials, local workforce development board members, core program partners and mandatory one-stop partners are an integral part of the planning process. WIOA encourages an enhanced, integrated system by including core programs in its planning and performance requirements. Each plan addresses how the LWDB coordinates service delivery with core programs of the Division of Vocational Rehabilitation, the Division of Blind Services and the Division of Career and Adult Education.

Each plan is based on current and projected needs of the workforce investment system, with an increased emphasis on coordination and collaboration at all levels to ensure a seamless system for employers and job seekers, including those with disabilities. Local plans identify the education and skill needs of the workforce and the employment needs of the local area. Plans include an analysis of the strengths and weaknesses of services provided to address identified needs. Assessments include the best available information, evidence of effectiveness, and performance information for specific service models and a plan to improve program effectiveness by adopting proven or promising practices as a part of the local vision. LWDBs provide a comprehensive view of the systemwide needs of the local workforce development area.

Local plans address how LWDBs foster strategic alignment, improve service integration and ensure the workforce system is industry-relevant, responding to the economic needs of the local workforce development area and matching employers with skilled workers. Services described in local plans should lead to greater efficiencies, reduce duplication, and maximize financial and human resources. These plan guidelines require LWDBs to address current and future strategies and efficiencies to address the continuous improvement of Florida's workforce system and its focus on customer service excellence.

Local plans should align with CareerSource Florida's business and market-driven principles to be the global leader for talent. These principles include:

- Increasing the prosperity of workers and employers
- Reducing welfare dependency
- Meeting employer needs
- Enhancing productivity and competitiveness
