Consent Item

DECEMBER 2022 MEETING MINUTES

In accordance with Article VII, Section 7.3 of the approved bylaws of CareerSource Florida, the corporation is required to keep correct and complete books and records of accounts and shall keep minutes on the proceedings of the Credentials Review Committee.

FOR CONSIDERATION

Approval of December 2022 Meeting Minutes, to include any modifications or changes noted by the Committee.

**Credentials Review Committee
Meeting Minutes
December 7, 2022**

I. CALL TO ORDER

Chair Crofoot called the meeting to order at 1 p.m. on December 7, 2022.

II. ROLL CALL

Lisa Cramer conducted roll call. The following members were present:

Katie Crofoot
Michael Biskie
Robert Boyd
Adam Calloway
Hugh Campbell
Kevin Carr
Katherine Goletz
Lloyd Gregg
Jennifer Grove
Diane Head
Adrienne Johnston
Debbie Magruder
Kevin O'Farrell
Jacob Olivia
Roger Strickland, designee for Chancellor Ray Rodrigues
James Taylor

A quorum was present.

III. CONSENT ITEM

Chair Crofoot called for a motion to approve the meeting minutes from October 31, 2022.

Motion: Kevin O'Farrell
Second: Mike Biskie

The consent item passed unanimously.

IV. PROPOSED FRAMEWORK OF QUALITY

Demand Threshold

Baptist Health Care Vice President of External Affairs and committee member Jennifer Grove stated the Demand Threshold group has met consistently since January 2022 and has explored numerous existing threshold methodologies and processes currently in use. The group worked on

developing criteria for local demand. The group reviewed key characteristics and methodologies used to develop demand thresholds, including examining work from other states, statewide and regional targeted occupations lists, local targeted occupations lists, Florida's eligible training provider list and the methodologies that are currently used. The workgroup focused on the local demand process used by Florida's 24 local workforce development boards.

The workgroup was challenged to develop a demand methodology that was flexible enough to meet the needs for smaller rural economies and still meet the needs of larger metro areas in the state and wanted to design a solution that worked for both existing occupations and credentials of value that lead to entry and advancement in those occupations, as well as those on the horizon. The group felt strongly about requiring partner support from workforce and economic development and education to make sure all agree and support the same priorities in local economies.

The credential must lead to an occupation in an industry sector of focus or in an emerging industry for the local area and supporting evidence must be provided. Evidence must be provided that the number of current or future openings for that occupation exceed either a threshold established by the local workforce development board or a minimum of 30 openings. When no local threshold exists, the workgroup determined the local demand threshold established by the local workforce development boards should be used. This evaluation process will include the required elements recommended by the workgroup and include definitions of acceptable documentation needed to demonstrate local demand.

Wage Threshold

Department of Economic Opportunity Deputy Secretary of the Division of Workforce Services and committee member Adrienne Johnston stated the workgroup assessed the current informational landscape and available sources and ultimately used the Department of Education's Education and Training Placement Information Program, the primary source for outcome data for training programs in the state of Florida in addition to data from the state Labor Market Estimating Conference.

Credential Sequencing

Department of Education Vice Chancellor of Career and Adult Education and workgroup facilitator Tara Goodman stated the committee considered a series of questions about what it means to be stackable, a sequence of credentials or part of a pathway. The group had representation from business and education because many conversations about sequencing involve educational concepts like articulation agreements as well as the progression of trainees or students along a pathway and using that information to progress the individual toward the next step in a sequence. The group benefited from learnings from a credentials of value workgroup convened in Florida prior to their work, and some members of the Credential Sequencing workgroup had participated in the work.

When a credential being evaluated does not meet the wage criteria, it would need to demonstrate that an individual who possessed that credential can move into a pathway, using that credential to stack to a higher-level credential. The committee's work might spur more articulation agreements, allowing examination into areas where there is a better opportunity to create stability for students and avoid the need to repeat training. The committee spent time discussing the need to have the ability to be on the Master Credentials List while articulation pathways are being built.

V. ACTION ITEM

Definition of Credentials of Value and Framework of Quality

CareerSource Florida Vice President of Business and Workforce Services Dan McGrew provided an overview stating the proposed definition for a credential of value is any credential defined in Florida Statute 14.36 that satisfies the criteria set forth in the framework of quality. The credentials of value will be included on the state Master Credential List. Credentials for that statute include apprenticeship certificates, industry certifications, licenses, advanced technical certificates, college credit certificates, career certificates, applied technology diplomas, associate and applied science degrees, associate in science degrees, Bachelor of Applied Science degrees and Bachelor of Science degrees. The framework of quality presented includes criteria for demand, wage criteria and credential sequencing criteria which satisfy the requirements set forth in Florida statute chapter 445.004.

Chair Crofoot called for a motion to approve the action item.

Motion: Hugh Campbell

Second: James Taylor

The motion passed unanimously.

VI. EVALUATION OF CREDENTIALS AND THE NEXT MASTER CREDENTIALS LIST

McGrew stated the Credential Occupation, Correlation and Identification Workgroup developed a comprehensive Classifications of Instructional Programs (CIP) to Standard Occupational Classification (SOC) crosswalk and collected an inventory of credentials offered throughout the state of Florida. The work allows the committee to enter the next phase of work, which is the creation of the Master Credentials List. The workgroup collected credentials from Florida school districts, Florida College system, the State University System of Florida, the independent colleges and universities of Florida, the commission for independent schools that are governed by the Commission for Independent Education, registered apprenticeships in Florida and occupational licenses. The credentials in the credential inventory will now be

evaluated using the approved Framework of Quality. The committee was notified at the last meeting that the application window for CAPE certifications seeking eligibility for CAPE funding would be opened from Nov. 1-30. There were 153 submissions during that time.

The workgroup identified credentials that did not have Standard Occupation Classification (SOC) linkages. CareerSource Florida contracted with Lightcast to assist in the work and provide linkages for the non-assigned credentials. The first step, once the SOC linkage has been established, is to evaluate the credential for its linkage to an occupation that is in demand and set forth in the Framework of Quality.

By February, the group will build out the application for credentials to be submitted after the initial evaluation of the credential inventory has been completed. The application will include opportunities to submit proof or documentation for local demand.

VII. POSTSECONDARY PERFORMANCE FUNDING ELIGIBILITY

Goodman stated the process of applying the definition that the committee just adopted will result in a list of credentials that are potentially eligible for postsecondary funding eligibility.

The proposed criteria for consideration and discussion is taken directly from the law. All industry certifications will have to be reviewed to evaluate whether the skills being assessed and demonstrated by successful attainment of that industry certification aligns with the completion of one of the workforce certificate programs.

VIII. OPEN DISCUSSION AND PUBLIC COMMENT

Amy McCallister with the Volusia County School District and Keitha Bennett with Farm Bureau spoke during the public comment, raising considerations for the ongoing evolution of the credentialing process.

IX. CHAIR'S CLOSING REMARKS

Chair Crofoot thanked everyone for their time and adjourned the meeting at 2:30 p.m.

Action Item 1

REVISIONS AND ADDITIONS TO THE 2022-2023 MASTER CREDENTIALS LIST

In 2021, Governor Ron DeSantis signed the Reimagining Education and Career Help (REACH) Act into law. This legislation made changes to existing law and created a Master Credentials List. As described in law, for the 2021-2022 school year, the Career and Professional Education (CAPE) Industry Certification Funding List and the CAPE Postsecondary Industry Certification Funding List adopted by the State Board of Education shall comprise the Master Credentials List.

In March 2022, the Florida Credentials Review Committee approved the 2022-2023 Master Credentials List, which includes the original 2021-2022 list, removes unavailable certifications and makes technical changes to names or certifying agencies that changed since the original list was created.

In October 2022, the Credentials Review Committee was notified that new submissions would be received from Nov. 1-30, 2022, for certifications seeking CAPE funding eligibility for the 2022-2023 school year. Submissions received in November were evaluated by the Department of Education for CAPE funding eligibility per requirements set forth in Florida Administrative Code Rule 6A-6.0576. Eligible submissions were further evaluated using the Framework of Quality required under the REACH Act and approved by the Credentials Review Committee in December 2022. A total of 17 certifications met the criteria set forth by the Department of Education and the Credentials Review Committee.

The list accompanying this action item includes these 17 new certifications and modifications including the removal of certifications that are no longer available and technical changes to names or certifying agencies that have changed in the past year. The list includes 527 certifications.

This list, if approved, would be sent to the CareerSource Florida Board of Directors for delivery to the State Board of Education. Credentials added to this list would be considered by the State Board of Education for CAPE funding eligibility for the current school year.

Note that subsequent to this approval and prior to the State Board of Education meeting, there may arise the need for technical revisions to the list, such as additional

certification names, availability of the certification, or code numbers that need to be revised.

FOR CONSIDERATION

- **Approve revisions to the 2022-2023 Master Credentials List including the addition of 17 new credentials, updating 11 credentials and the removal of 3 certifications.**
- **Authorize the Credentials Review Committee to send these recommendations to the CareerSource Florida Board of Directors for delivery to the State Board of Education.**

Action Item 2

2023-2024 MASTER CREDENTIALS LIST

The Reimagining Education and Career Help (REACH) Act amended Chapter 445.004, Florida Statutes, and requires that the Credentials Review Committee define “credentials of value” and make recommendations for these credentials to be added to a state-approved Master Credentials List.

In December 2022, the Credentials Review Committee approved the definition for credentials of value and a Framework of Quality by which these credentials would be evaluated. This Framework of Quality was used to evaluate all existing and new credentials that met the definition, including apprenticeship certificates, industry certifications, licenses, advanced technical certificates, college credit certificates, career certificates, applied technology diplomas, Associate in Applied Science degrees, and Associate in Science degrees. Because available labor market data was limited to occupations requiring an associate degree or below, Bachelor of Applied Science and Bachelor of Science degrees were not evaluated.

The 2023-2024 Master Credentials List accompanying this action item includes the first group of credentials evaluated using the Framework of Quality criteria developed by the Credentials Review Committee. In total, 2,059 credentials were evaluated. The 2023-2024 Master Credentials List includes:

1. 275 degree credentials which meet the state or regional demand criteria defined by the Framework of Quality.
2. 1,446 non-degree credentials which meet the demand and wage criteria defined by the Framework of Quality.
3. 33 digital tools recommended by the Department of Education for inclusion on the Master Credentials List.

Additionally, the list includes non-degree credentials that have been granted a one-year provisional status on the Master Credentials List. These non-degree credentials do not fully meet the demand and wage criteria established by the committee. These credentials have the opportunity to be considered for non-provisional inclusion on the 2023-2024 Master Credentials List by submitting documentation supporting either local demand or sequencing to a higher credential that leads to an occupation that meets the wage threshold. Credentials that do not submit acceptable documentation will be removed from the list for the 2024-25 year. A total of 78 Industry Certifications, 85

apprenticeships, 136 nondegree programs of study and 10 degree programs of study have been granted provisional inclusion on the 2023-2024 Master Credentials List.

The 2023-2024 Master Credentials List, if approved, would be sent to the CareerSource Florida Board of Directors for delivery to the State Board of Education.

Note that after this approval and prior to the State Board of Education meeting, there may arise the need for technical revisions to the list, such as additional certification names, availability of the certification, or code numbers that need to be revised.

FOR CONSIDERATION

- **Approve the list of 2,063 credentials as the first credentials added to the 2023-2024 Master Credentials List.**
- **Authorize the Credentials Review Committee to send these recommendations to the CareerSource Florida Board of Directors for delivery to the State Board of Education.**

Paul Burns, Ed.D., Florida Department of Education

Dr. Paul O. Burns joined the Florida Department of Education as the deputy chancellor for educator quality in 2018 bringing with him nearly 20 years of education experience.

In January 2023, he was elevated to chancellor of public schools. In this role, he supports the teaching and learning of over 2.9 million students in approximately 3,600 Florida public schools by promoting student achievement and supporting Florida educators. Chancellor Burns also provides ongoing leadership and communication with Florida school districts statewide.

Prior to joining the Department, Chancellor Burns served as a classroom teacher and school principal, among numerous other school leadership roles.

Jason McCandless, Florida Department of Economic Opportunity Designee

Jason McCandless is the assistant deputy secretary for the division of Workforce Services at the Florida Department of Economic Opportunity (DEO). Prior to his current job, Jason was the vice commander of Space Delta 4, Buckley Space Force Base, Colorado. Jason is retired from the United States Space Force, after serving more than 20 years. He was commissioned through the Air Force Reserve Officer Training Corps at Saint Joseph's University and graduated from Pennsylvania State University in 2002. His career includes Intercontinental Ballistic Missile (ICBM) operations and space operations in the Space-Based Infrared

System (SBIRS) program.

Jason has served staff assignments at Headquarters, Air Force Space Command and Headquarters, United States Air Force.

Florida Credentials Review Committee

Speaker Bio

Dave Sobush, CEcD

Dave Sobush serves as the director of research for the Florida Chamber Foundation. He is a Certified Economic Developer (CEcD) with over 20 years of experience in economic development research, economic diversification and resiliency, data analysis, mining and reporting, public policy, stakeholder engagement, project management and more.

As director of research for the Florida Chamber Foundation, Sobush oversees the Foundation's numerous research projects, TheFloridaScorecard.org and heads up the Florida 2030 Blueprint Caucus to strategically align the business community with trade associations, local chambers and business groups focused on growing Florida the right way. Sobush provides economic analysis to our local chambers, economic developers and other key members and partners.

Sobush holds a Master of Business Administration in Finance and Economics, a Master of Education in Social Studies Education, and a Bachelor of Arts in History.

Industry Focus Groups

The Florida Chamber Foundation, with the support of a grant from the Bill & Melinda Gates, is currently conducting the *Florida Workforce Needs Study 2.0*. This 24-month research project will provide insight into how Florida businesses and educational institutions can partner to advance the hard and soft skills needed to narrow Florida's workforce skills gaps and improve our talent pipeline.

In late March and early April, Foundation staff, in cooperation and concert with CareerSource Florida, will convene a series of employer focus groups in geographically and economically representative areas of the state. Employers will convene around skills-based employment needs that previous research identified to have a key role in Florida's continued economic growth and development:

- Manufacturing/Construction/Skilled Trades
- Information Technology
- Healthcare
- Professional Services/Business and Finance

Research objectives are to gain insight regarding current and emerging skills needs, catalogue best practices in employer-educator partnerships and identify ways to maximize utilization of training support initiatives. Notably, each session will include significant time devoted to introducing employers to the work of the Credential Review Committee, to include an overview of the Framework of Quality, review and feedback on the Master Credentials List, and identifying preferred methods of employer engagement moving forward.

All learnings will inform strategies and policy recommendations as part of the final report of research findings, to be released in late 2023.

Florida Credentials Review Committee

2022 - 2023 Timeline

February 2022	<p>2/1 to 2/4 – ESG Employer Focus Groups convene. Preliminary Florida Credentials of Value Workgroup report received with final report expected in March.</p> <p>2/17 – Labor Market Estimating Conference meeting #2 – Supply and demand analysis not adopted by conference.</p> <p>Framework of Quality workgroups convene and continue work.</p>
March 2022	<p>3/9, 10 a.m. to 12 p.m. – Virtual Credentials Review Committee meeting to update the committee on Framework of Quality workgroups, present findings from ESG Credentials of Value work, and present an update on progress of the Labor Market Estimating Conference’s work on wages and supply and demand. Action item to consider current Master Credentials List for 2022-2023 school year to be presented.</p> <p>Mid-March – Preliminary Credentials Review Committee Communications Plan drafted.</p> <p>3/29 – Virtual CareerSource Florida Executive Committee meeting; Committee votes on delivery of 2022-2023 Master Credentials List to State Board of Education.</p>
April 2022	<p>April – Anticipate the Office of Economic and Demographic Research will provide additional wage analyses to include wages for occupations at all education levels; wage comparisons within the eight education levels (below high school through graduate degrees); and potential proxy for determining entry-level wages in addition to wage range brackets for all earners.</p> <p>4/28, 1-4 p.m. – Credentials Review Committee meeting in Tallahassee to include progress report outs from Framework of Quality workgroups; review wage threshold scenarios and discuss process for determining local demand.</p>

Florida Credentials Review Committee

May 2022	Workgroups continue discussions. Begin development of Returned-Value Funding Formula for presentation at June Credentials Review Committee meeting.
June 2022	6/27, 3 p.m. to 5 p.m. – Credentials Review Committee meeting in Tampa, coinciding with Florida Chamber Foundation’s Learners to Earners Summit, to introduce Returned-Value Funding Formula; provide updates from Framework of Quality workgroups and Labor Market Estimating Conference progress toward August conference; review list of credentials that will be evaluated for inclusion on Master Credentials List; and review outcomes from Florida Chamber Foundation’s Florida Workforce Needs Survey 2.0.
October 2022	<p>10/25 – Labor Market Estimating Conference meeting – Labor market data for occupations at sub-baccalaureate level provided.</p> <p>10/31 – Virtual Credentials Review Committee meeting to provide status updates and revised timeline for Master Credentials List development.</p> <p>Framework of Quality Workgroups receive labor market data from Conference and finalize proposed definition of Credentials of Value and Framework of Quality.</p>
November 2022	<p>11/1 to 11/30 – Application window open for submission of certifications to be considered for state Career and Professional Education (CAPE) Act funding for the 2022-2023 school year.</p> <p>Mid-November – Agenda packet for December Credentials Review Committee meeting provided to committee members for review.</p>
December 2022	<p>12/7 – Credentials Review Committee meeting in Tallahassee to approve final Framework of Quality criteria and introduce postsecondary performance funding.</p> <p>Initial evaluation of credentials using approved Framework of Quality begins. Credentials to evaluate include:</p>

Florida Credentials Review Committee

	<ul style="list-style-type: none"> • Sub-baccalaureate credentials collected by the Credentials Review Committee workgroups which include those collected from: <ul style="list-style-type: none"> ○ Florida School Districts ○ Florida College System ○ State University System of Florida ○ Independent Colleges and Universities of Florida ○ Commission for Independent Education ○ Registered Apprenticeships in Florida ○ Occupational Licenses • Industry certifications submitted in the November CAPE application window • Current Master Credentials List
<p>February 2023</p>	<p>02/09 Credentials Review Committee meeting to consider recommendations for additions to the 2022-2023 Master Credentials List and the first credentials added to the 2023-2024 Master Credentials List.</p> <p>02/10 Master Credentials List Online Application available.</p> <p>02/23 CareerSource Florida Board of Directors meeting – Board to vote on delivery of 2022-2023 Master Credentials List revisions and 2023-2024 Master Credentials List to the State Board of Education.</p>
